# SOLAR PANEL

V-Guard's solar photovoltaics (often abbreviated as PV) panels harnesses the sun's energy directly and effectively. The latest addition to our solar panel family: mono crystalline perc module, is no exception. The meticulous product design and stringent quality control ensure that this module delivers an exceptionally high photovoltaics yield. Experience best-in-class performance and reliability. Without causing any pollution or noise, these panels convert the incident solar radiation into electricity. The high transmittance and low iron tempered glass with the anti-reflective coating will catch and absorb light immediately and effectively. The best part is that this panel is designed to withstand extreme weather conditions like heavy winds, snow loads etc. and is waterproof and corrosion-resistant.

#### DISCLAIMER:

We undertake to repair this PV Module ( 270wp and above) free of cost for a period of 10 years from the date of purchase against any manufacturing defects and the performance warranty is not less than 90% output at the end of 10 years and 80% at the end of 25 years from the date of purchase.

25 YEARS WARRANTY ON PANEL WITH ONSITE SERVICE

EXCELLENT PERFORMANCE EVEN IN LOW-LIGHT ENVIRONMENTS

PID RESISTANCE TO AVOID POWER LOSS DURING EXTREME ENVIRONMENT CONDITIONS LIKE SALT MIST, BLOWING SAND, ETC.

HIGH EFFICIENCY IN CONVERTING SUNLIGHT INTO ELECTRICITY EVEN IN SMALL ROOF SPACES

WATERPROOF & CORROSION RESISTANT

CERTIFIED BY

# ON-GRID INVERTER

The V-Guard's SOLSMART Solar On Grid Inverter uses state of the art technology, by connecting the inverters to the solar panels to generate electricity. These range of inverters have been engineered to global standards with stylish aesthetics and high levels of efficiency in the market today. Since the solar panel is actively used to generate electricity with its connection to the grid system to export power, this technology put to place helps reduce the overall electricity bill. The SOLSMART Solar Grid Inverters offer both single and three phase models.

# SOLSMART ON-GRID ROOFTOP SOLAR SYSTEM

Solar energy brought to you in a smart way! Introducing SolSmart On-Grid Rooftop Solar Systems, a futuristic product from the house of V-Guard. Developed using state-of-the-art technology and engineered to meet global standards, the SolSmart power systems generate electricity from solar energy. Being an on-grid system, you can feed the surplus energy produced by the same back to the connected power grid, thereby reducing your electricity bills. The system is powered by feature-loaded high-efficiency Mono PERC panels with a warranty of over 25 years. The SolSmart PV inverter incorporated in the system boasts of such power-packed features as free Wi-Fi data logger, high operating temperature range, smart mobile-app controlled operation, and a whopping 10-year warranty! SolSmart systems are available in both single phase and three-phase models so that you can choose the perfect fit for your home.

## WHY WAIT FOR IT?

BRING HOME THE  
**SOLSMART ON-GRID  
ROOFTOP SOLAR SYSTEM,**  
GENERATE GREEN POWER,  
AND SAVE ON YOUR MONTHLY  
ELECTRICITY BILLS.
